

Lesson 11: Polynomial Functions

Rubric Criteria

- **Key Features Identification** (30%): Accuracy in finding x-intercepts (zeros), y-intercepts, and identifying the degree/leading coefficient to determine end behavior.
- **Graphing and Visualization** (30%): Precision in sketching graphs, including proper shape, turning points, and end behavior.
- **Algebraic Skills**(30%): Proficient factoring (including quadratic form), expanding expressions, and performing operations such as addition and subtraction.
- **Modeling and Problem Solving** (10%): Applying polynomial functions to real-world contexts, such as interpreting maximum/minimum values.
