

Math 1314 Lesson 13

1) State the intervals on which the function is increasing, decreasing, or constant.

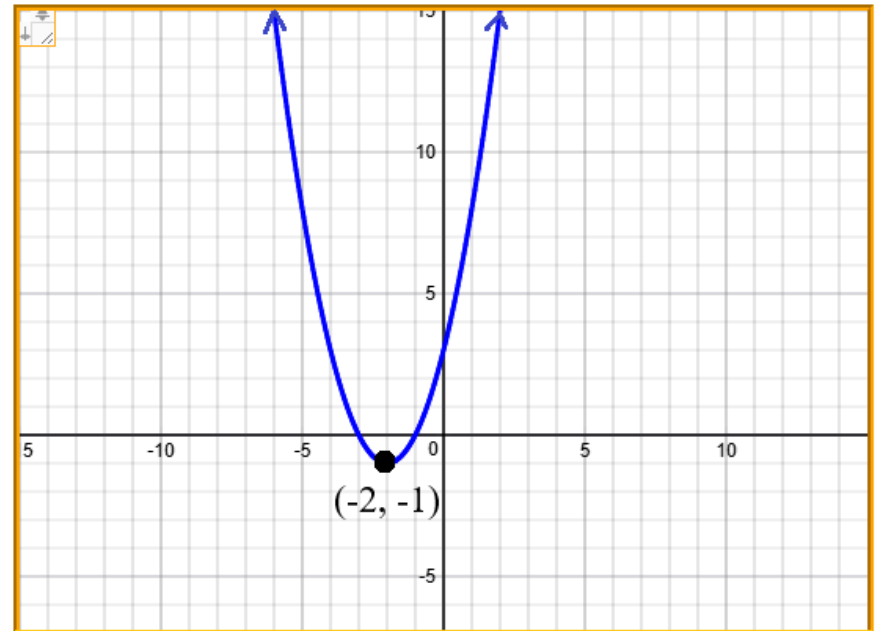

a) The function is increasing on the interval: _____ ?

b) The function is decreasing on the interval: _____ ?

c) Lowest point on graph is: _____ ?

d) Domain of graph is _____ ?

e) Range of graph is _____ ?

2) State the intervals on which the function is increasing, decreasing, or constant

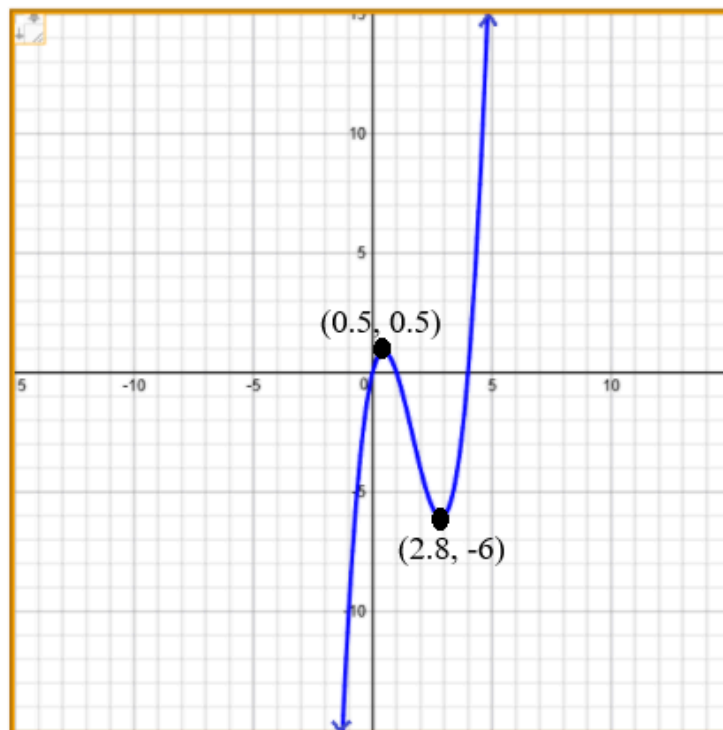

a) The function is increasing on the interval: _____?

b) The function is decreasing on the interval: _____?

c) Lowest point on graph is: _____?

d) Domain of graph is _____?

e) Range of graph is _____?

3) State the intervals on which the function is increasing, decreasing, or constant

a) The function is increasing on the interval: _____ ?

b) The function is decreasing on the interval: _____ ?

c) The function is constant on the interval: _____ ?

c) Lowest point on graph is: _____ ?

d) Domain of graph is _____ ?

e) Range of graph is _____ ?
